

8 April 1963

MEMORANDUM FOR THE RECORD

Mr. Houston talked to General Carter on 8 April indicating that probably we could simply sit on a response to Fulbright without causing great difficulty. General Carter stated he favored this procedure and he would be perfectly willing to accept responsibility if there were later problems on this. Mr. Houston indicated that it was our estimate that there would not be such difficulties although one can never be sure. Therefore, we will hold.
